

PURPOSE: Technical Communication Intern

Energion Inc. is looking to hire an industrial, mechanical or chemical engineering intern to work closely with the senior management of the company. This position is perfect for individuals with superior **written** and **verbal communication** skills to communicate company's R&D plans. The intern will be involved in technical market research and therefore a good understanding of fundamental of mechanical engineering is necessary for this position. This position is ideal for individuals looking to gain exposure to cutting edge technology in the sustainable energy industry.

RESPONSIBILITIES:

- Develop very well written technical reports
- Develop market intelligence reports based on market research
- Some project management
- Maintain all files within the document management system, providing document control

POSITION QUALIFICATIONS AND EXPERIENCE:

- Individuals currently enrolled in either third or fourth year industrial, mechanical or chemical engineering **or** currently pursuing graduate studies in these fields. This position is also open to recent graduates.
- A minimum cumulative of at least "B".

THE FOLLOWING WOULD BE CONSIDERED AN ASSET:

- Any experience that testifies the communication skills of the candidate

To apply, please send your resume or a short paragraph explaining why you are a good candidate for this position to Dr. Bahman Lashkari (bahman.lashkari@energion.com).
