

Application for 2019/2020 MIE Endowed Fellowships and Bursaries

Dept of MIE will award several Endowed Fellowships for 2019-2020, listed below.

Several MIE Bursaries are available to MIE MASc and PhD students who are in financial need.

If you are eligible for any of these fellowships/bursaries, then email the following application documents (1-4), in one single pdf file, to gradoffice@mie.utoronto.ca, by **Monday, September 30, 2019 (4:00 pm)**

(1) MIE Endowed Fellowship Application Form (2) one-page statement highlighting academic strength, research capacity and leadership (3) scanned transcripts (4) financial assessment form (for those award marked **Need-based/OSOTF****).**

Guideline for the one-page statement, under the following headings

(1) Academic Strength: describe your academic achievements, your contributions to research

(2) Research area: describe how your research relate to the fellowship(s) that you are applying for

(3) Leadership: describe your leadership experience (could be extracurricular, within the research lab, competitions etc)

Student Name: _____ Student Number: _____

Email: _____

Degree Program: _____ Start date of program _____ Supervisor: _____

If you have scholarship/external funding in 2018-2019 for your study, please indicate the scholarship name and amount: _____

PhD students: Date of last committee meeting held – if you are holding one in November 2019, please enter as well (MM/DD/YYYY): _____

Enter “YES” for the fellowships that you are eligible, and wish to be considered for:

_____ Glynn Williams – 1st year PhD** (Need-based/OSOTF)

_____ Bert Wasmund – sustainable energy

_____ Bill Shaw (IVARA CORP) / Memorial Scholarship – maintenance optimization or reliability engineering

_____ Weber and Mariano Graduate Scholarship - biomedical engineering

_____ Russell Reynolds – thermodynamics

_____ Pierre Rivard – alternative energy

_____ David Sanborn Scott / Ron D Venter – hydrogen and low-carbon energy

_____ Neil Duncan Thompson – engines or motor vehicles **(Need-based/OSOTF)

_____ Barbara and Frank Milligan Graduate Fellowship – biomedical engineering

_____ 6T6 Industrial Engineering 50th Fellowship in Healthcare Engineering – PhD student in healthcare engineering
