MIE498H1: Research Thesis 2023-2024

Supervisor	Fae Azhari
Supervisor email	azhari@mie.utoronto.ca
Number of Positions	1
Open to	Mechanical Engineering Students
Term Offered	Winter (S)
Research Area	Mechanics and Design - Sensing
Research Topic	Monitoring wind turbine blades

Project Description

Using fiber optic sensors for damage detection in wind turbine blades.

Additional Information	N/A
Application Instructions	Please submit CV, transcripts, and a short one-paragraph motivation statement to Prof. Fae Azhari at fae.azhari@utoronto.ca.
