

Overload Request Form

Faculty of Applied Science and Engineering – Department of Mechanical and Industrial Engineering
The University of Toronto respects your privacy. The information on this form is collected pursuant to section 2(14) of the University of Toronto Act, 1971.

Please email this form to the MIE Undergraduate Office (undergrad@mie.utoronto.ca) by the following deadlines for consideration:

FALL & FULL YEAR SESSION (F & Y) – September 20, 2023 | WINTER SESSION (S) – January 21, 2024

Students who intend to enroll in a course load exceeding 2.5 credits per semester are required to secure formal approval from the MIE Undergraduate Office using this form **ONLY**. Courses marked as EXT/extra are taken into account when determining your overall course load and eligibility to overload. If you are a full-time student, overloading does not increase your tuition fees.

Overloading involves increased workload. It is important to manage the course load appropriately. A student wishing to overload must meet a **minimum CGPA of 2.7 or above**. If a student has failed a course required for their degree and must overload in order to graduate on time, this requirement may be waived. Students who have **two or more** courses with pending grades/notations (such as SDF, INC, GWR, etc.) are not eligible to submit an overload form until grades are available for those courses.

DISCLAIMER: This is NOT a course add form. Submitting this form does not guarantee enrollment into your overloaded course of interest. For many engineering minor courses and CS/HSS electives, you will be able to add them yourself on the course selection days. If you are unable to add the course yourself, please indicate beside the course information below. **It is good practice to try and add the course yourself before requesting permission to overload.** Please note that The MIE Undergraduate Office cannot add you to courses that are not administered by our department.
