Fourth-Year Thesis Awards

Centennial Senior Project Awards

The Centennial Thesis Awards were established in 1972-1973 in honour of the Faculty's centennial. To recognize excellence in a fourth-year thesis or capstone design project, one award is made annually to a student or team of students in each of the Faculty's nine degree programs. The decision is based on departmental recommendations. The award is in the form of a \$500 prize and an accompanying certificate. Original funding was provided through the Office of the Dean and is continued through the generosity of the University of Toronto Engineering Alumni Association.

Dr. Arthur Herrmann Memorial Award

The family of Dr. Arthur Alexander Herrmann has established a memorial fund in memory of the 100th anniversary of his birth (July 4, 1891). The award is derived from the income of the fund and will be granted to a fourth-year student in Mechanical Engineering whose major interest and thesis topic reflect concern for the protection of the environment.

A. B. Platt Award,

Toronto Section of the Society of Tribologists and Lubrication Engineers Funded in perpetuity by a capital donation from the Toronto Section of the Society of Tribologists and Lubrication Engineers (STLE), this prize is awarded annually to the student in the fourth year of either Mechanical, Chemical or Materials Engineering program whose work in tribology (friction, wear, lubrication, wear resistant coatings) is considered to be of suitable quality and the most satisfactory. The award has a value of \$100, of which \$75 is presented to the student and the remaining \$25 is given to the department for the purchase of publications on tribology.

Frank Chik & Lai Nar Man Award

Awarded to a student or team of students with the most meritorious thesis and/or capstone design project related to integrated circuits, semi-conductors, electronics, or similar field.
